

Public Notice

Antidegradation Alternatives Analysis for Bayer CropScience LLLC Located in Muscatine, Iowa

Notice Date: May 20, 2026

Notice is hereby given that Bayer CropScience LLC, in the City of Muscatine, Iowa has completed a draft antidegradation alternatives analysis to request utilizing 6 new polymers in the clarifier and DAF equipment of the wastewater treatment system at the Bayer Muscatine site. These polymers may assist in clarifier settling and DAF flocculation. The wastewater treatment system discharges treated water to the Mississippi River. The Mississippi River is protected for Class A1 primary contact recreational, B(WW-1) warm water, and HH human health benefit.

Anyone wishing to comment on the proposed treatment alternative must do so in writing within 30 days of the date shown at the top of this notice. Comments may be submitted to Bayer CropScience LLC by hand delivery or by mail:

Bayer CropScience LLC
Environmental Department
2500 Wiggins Road
Muscatine, IA 52761

Copies of this notice, the draft antidegradation alternatives analysis and supporting information are on file and available for public inspection from 8:00 AM to 4:00 PM Monday through Friday at the above address. Copies of this information may be requested by contacting Bayer CropScience LLC at 563-263-0093 and requesting to talk with the Environmental Department. Bayer CropScience LLC will submit a summary of comments received as well as Bayer CropScience LLC responses to the Iowa Department of Natural Resources with the final alternatives analysis subject to IDNR review and approval.
